

I am writing to implore the FCC to REJECT the NAB's petition 04-160!!!  
I travel constantly and XM has been an such a great addition to my traveling experience. XM has helped in providing safer travel for myself through its traffic and weather information. As a female in sales, this is imperative for my personal safety. I pay for these services with XM because they cater to my needs and help me feel safer on the road. It is worth it to me to pay a monthly fee for the services XM offers. I've been a subscriber for over two years now and I have no intentions of dropping my subscription. I pay for the services and I expect to get what I pay for. So, please reject this petition and allow subscribers like myself to continue to get the excellent services that XM provides.
